Introduction

JCP is fully equipped with the most modern machineries to manufacture and supply precast concrete masonry units up to the volume of 70,000 units per day. Its success has been the result of its commitment to total customer satisfaction. It understands the need for the timely delivery of a quality product, and is dedicated to meet the customer's requirements. With five batching plants, a state-of-the-art of batching, production and delivery system, JCP is uniquely positioned to make your project a total success.

JCP considers technical capability as its core competency. Engineers with relevant experience, exposure and educational qualifications are leading the technical department. JCP Team is committed to R&D in concrete technology.

All ingredients & products are thoroughly tested for its quality and physical properties in well-equipped laboratory. It ensures that the products coming out of the machines exceed the requirements of the clients and also quality standards as per the required standards. Quality Control systems monitor every stage of production and enable the company to achieve highest targets in quality and consistency.

Brief History

Jubail Concrete Products (J. C. P.) was formed in 1980 as a wholly owned subsidiary of Khonaini International Co. Ltd. based in Jubail. It started in the block production industry with one major intention, to relieve contractor and builders of the problems of the finding guaranteed, consistently high quality block work. This was accomplished by purchasing a Zenith 940's multilayer block plant, at that time, the very latest machine from "Rolls Royce" company of block plant manufactures. They also scored a "First" in that this was the first plant of its type in the Eastern Province and most of the production equipment is the first of its type anywhere in the Middle East.

First Batching Plant- Started in 1983

First Batching Control Unit-Started in 1983

Khonaini International Company has grown from modest beginnings to extensive business interest throughout Jubail City, The Eastern Province of the Kingdom of Saudi Arabia. Among these businesses, JCP is one of the successful divisions and produces Quality Precast Concrete Products that is currently marketed throughout Saudi Arabia.
